D	" <i>Penstemon antarhinsides</i> ,	Potrero	Sept 20/76,

I found great difficulty in
 obtaining even the few seeds of
Mirabilis multiflora I send to you.
 They will prob. germinate and grow
 I feel sure, the flower is handsome.
 If I can be of service
 to you here do not hesitate to
 command me.

Very truly yours
 D. Cleveland

* 457. I found only one plant, the only one I ever saw,
 It was not more than two⁽²⁾ feet tall. The
 other plants of this genus bloom in the
 Spring. It seems to me that this must
 be new. I could find only three good
 specimens in blossom, two of which
 — the best — I send to you.
